

And I – Dawid Podsiadło

The park, streets, your home
Feel oddly empty
I don't recall
Your face smiling
You try to act the same
But hopelessly
You are my place
The place where I'm stuck in
And I know that
You saw me
There in the crowd I stood alone
Alone, alone, alone
All of these beautiful memories
Seem like a giant blur
We were, we're not something more
We're sick impossible to cure
I'd like to be there on the same train
That you are on
But I know your love is
For someone else to be owned
And I know that
You saw me
There in the crowd I stood alone
Alone, alone, alone
And I know that
You saw me
There in the crowd I stood alone
Alone, alone, alone
Please leave me
I don't want to be the reason of your pain
So just leave me 'cause it's a thing we know
Nothing is gonna change
And I know that
You saw me
There in the crowd I stood alone
Alone, alone, alone
