

Forever And A Night – Viki Gabor

So hot that I'm on fire
Could swear I'm in L.A.
'Cause when I got you with me
You take me away

You got to leave tomorrow
Please don't get on the plane
'Cause we could have forever
Why don't you just stay

Then tell me lies
The sweet, sweet lies
And sugarcoat the truth
Of this goodbye

So tell me lies
And hold me like
This could be forever
This could be forever and a night

Tell me la, lies
Tell me la, lies
We could be forever and a night

Hold me la, like
Hold me la, like
This could be forever and a night

Tell me la, lies
Tell me la, lies
We could be forever and a night

Hold me la, like
Hold me la, like
This could be forever and a night

I swear that I'm in heaven
'Cause I can touch the sky
I love the way I'm feeling
It's like I can fly

The only thing that matters
Is all we do right now
We light it up together
As the sun goes down

Then tell me lies
The sweet, sweet lies
And sugarcoat the truth
Of this goodbye

So tell me lies
And hold me like
This could be forever
This could be forever and a night

Tell me la, lies
Tell me la, lies
We could be forever and a night

Hold me la, like
Hold me la, like
This could be forever and a night

Tell me la, lies
Tell me la, lies
We could be forever and a night

Hold me la, like
Hold me la, like
This could be forever and a night

Forever and a night
This could be forever and a night

Don't let me down

Let me down, let me down
Let me down, down, down, down

Oh tell me now
Tell me now, tell me now
Tell me now, now, now, now

Don't let me down
Let me down, let me down
Let me down, down, down, down

Oh tell me now
Tell me now, tell me now
Tell me now, now, now, now

Tell me la, lies
Tell me la, lies
We could be forever and a night

Hold me la, like
Hold me la, like
This could be forever and a night

Tell me la, lies
Tell me la, lies
We could be forever and a night

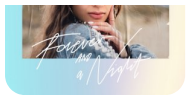

Hold me la, like
Hold me la, like
This could be forever and a night

Forever and a night
This could be forever and a night

Forever and a night
This could be forever and a night
